RACE VIEWING – The track races directly around La Rascasse so guests are right in the heart of the action. From multiple viewing spots in the venue guests can watch as the cars exit the La Piscine section before racing directly towards Rascasse. The cars will pass just meters from our guests and from the first floor viewing balcony our lucky guests will be able to look down into the cockpit of the car! This is a totally unique viewing perspective to have. When the day's racing finishes the Rascasse party begins and goes on until the early hours of the morning. Our guests are invited to stay in Rascasse to enjoy this great atmosphere for as long as they like.

HOSPITALITY – Rascasse serve a full day of hospitality from their kitchen starting with some light breakfast pastries with tea, coffee and juices in the morning. From midday the full drinks package begins with Champagne, fines wines, spirits, cocktails and other drinks included with the package until the end of the racing schedule. A fine buffet luncheon is served including live cooking stations and a wide choice to suit all tastes. Some light afternoon snacks are served once the main race has finished.
